The Bovie Bantam|PRO, A952, is a High Frequency Desiccator with cutting ability. You might call it a split personality. One half of the unit is a high frequency desiccator, an upgrade to our very popular Aaron® 940. The other half is a Bovie Generator, giving you 50 watts of cutting power and coag capabilities – plenty of power for most cutting procedure performed in the doctor’s office.

High Frequency Desiccator with 50 watts of Cutting capabilities

Two machines in one convenient package

Adjustable in 1/10th watt increments in the first 10 watts, for the most accurate output available

No grounding pad required when working in the desiccation mode

When in electrosurgical generator mode, the unit features Bovie NEM™ pad sensing technology which monitors the return electrode for optimum patient protection.
