The premier electrosurgery unit from Bovie for animal health procedures. The Bovie 2350-V is engineered with the technology and safety of more expensive electrosurgical units but economically priced for animal health practice.

- This unit is intended for cutting, coagulation, ablation of a variety of tissues. The Bovie 2350-V is suitable for general procedures, tumor removals, and gingivectomy procedures performed in an operating suite and procedure room.

- The Bovie 2350-V offers more electrosurgery modalities than lower watt models including four (4) blend settings, allowing Veterinarians to deliver safe and precise energy applications during more complex surgical procedures.

- Dual monopolar ports can be activated simultaneously in fulguration to control bleeding or treat superficial tissue. The dual ports can also be utilized separately in different modes.

- This generator has a dedicated bipolar connector port allowing the veterinarian to stay in their sterile field and quickly switch back and forth from two monopolar pencils to forceps.

- The Cut II specialized laparoscopic mode is engineer with a lower voltage than competitive units reducing the risk of alternate site burns and increasing patient safety during minimally invasive procedures.

- Ten (10) presets for quick and easy setup.
PRODUCT SPECIFICATIONS

**Dimensions**
- Height: 16.5cm (6.5 in.)
- Width: 37.5cm (14.75 in.)
- Depth: 46cm (18.1 in.)
- Weight: <9.07 kg (<20 lbs)

**Output Power**
- Cut I & II: 200 watts
- Blend (1-4): 200 watts
- Pinpoint Coagulation: 120 watts
- Spray Coagulation: 120 watts
- Gentle Coagulation: 120 watts
- Macro Bipolar: 80 watts
- Micro Bipolar: 80 watts
- Standard Bipolar: 50 watts

**Output Frequency**
- 490 kHz ± 5

**Line Voltage**
- 100 – 240V ± 10%

**Line Frequency**
- 50 – 60 Hz

**Warranty:** FOUR YEARS

---

**EQUIPMENT INCLUDED**
- A1254C
- A1204P
- ESPR2

**RECOMMENDED ACCESSORIES**
- BV-1253B Monopolar Footswitch
- BV-1254B Bipolar Footswitch
- A1255A Footswitch Adapter
- A827V Bipolar Forceps Cable
- A821 Reusable Bipolar Forceps
- SCH10 Suction Coagulator

*Not Pictured  **Other Styles Available  †Sold Separately

---

**Product code:** A2350-V

**Standard Equipment**
1. Bovie 2350-V Electrosurgical Generator
2. ESPR2 Sterile Reusable Pencil
3. A1204P Reusable Stainless Steel Grounding Plate
4. A1254C Reusable Grounding Cord
5. 120 VAC, 240 VAC Hospital-Grade Power Cord*

**Recommended Accessories†**
- BV-1253B Monopolar Footswitch
- BV-1254B Bipolar Footswitch
- A1255A Footswitch Adapter
- A827V Bipolar Forceps Cable
- A821 Reusable Bipolar Forceps
- SCH10 Suction Coagulator
