The Bovie A952, is a High Frequency Desiccator with cutting ability. You might call it a split personality. One half of the unit is a high frequency desiccator, an upgrade to our very popular Aaron® 940. The other half is a Bovie Generator, giving you 50 watts of cutting power and coag capabilities – plenty of power for most cutting procedures performed in the veterinarian’s office.

- High Frequency Desiccator with 50 watts of Cutting capabilities
- Two machines in one convenient package
- Adjustable in 1/10th watt increments in the first 10 watts, for the most accurate output available
- No grounding pad required when working in the desiccation mode

Visit BovieVet.com/A952-V for more information
