PROCEDURE SAFETY
AORN recommends the use of smoke evacuation systems during any medical procedure producing surgical smoke.

REDUCED RISK
500,000 healthcare professionals are exposed to surgical smoke proven to carry viruses, CO, and other chemical and biological hazards. The Smoke Shark II mimizes exposure to these toxic smoke plumes during electrosurgery, laser, and harmonic scalpel procedures.

COST EFFECTIVE
The Extended-Life Filter (SF35) offers up to 35 hours performance reducing procedure cost by 38% (+/-) when used at the lowest setting.

INCREASED EFFICIENCY
The Smoke Shark II Smoke Evacuator is compatible with most electrosurgical generators. The unit operates in conjunction with the optional Bovie Remote Activation Switch (SERS2) for maximized filter life and surgical efficiency.

MODERN DESIGN
A light-weight, ultra-quiet and compact design allowing for simplified operation, storage, and portability.

RELIABLE
The Smoke Shark II Smoke Evacuator includes a standard two (2) year manufacturer warranty.
**STANDARD SETUP**

- Long-Life 35-hr Filter
- Pneumatic Footswitch
- Smoke Evacuator Pencil Adapter with 6’ Tube
- Remote Switch Activator
