Suite of

ACUTE CARE SURGERY PRODUCTS

designed for your portfolio of procedures

A wide range of generator power to meet multiple procedural needs

Full suite of products offered in one convenient place
The Next Generation of Electrosurgical Generators

ELECTROSURGICAL GENERATORS

Feature: The **dual monopolar ports** allow two surgeons to work simultaneously in the spray coagulation setting.

**Benefit:** The two surgeons can work in separate areas allowing the procedure to be completed faster.

Feature: The **CUT II** mode has a low peak to peak voltage (Vp-p) of 750Vp-p. This allows for less tissue damage when performing invasive surgical procedures using any procedural scope.

**Benefit:** When performing a laparoscopic cutting procedure and cauterizing tissue, the **CUT II** mode causes less damage to the tissue allowing for faster healing time. This mode may help prevent direct and capacitance coupling.

Feature: The **Auto Bipolar** setting allows the surgeon to activate the bipolar forceps without a foot pedal.

**Benefit:** The surgeon does not have to look down to locate the foot pedal allowing for quicker activation of the bipolar forcep saving time and motion during the procedure.

Feature: The **Bovie® Bipolar** has more power than the Macro, Micro, and Standard bipolar settings.

**Benefit:** This mode provides enough power for the most demanding surgical procedures.

Feature: **Gentle Coag Mode**

**Benefit:** This mode provides gentler coagulation when a Gold Probe™* is used during a colonoscopy to prevent perforation of the intestine.

Feature: **Split Pad**

**Benefit:** Complete patient safety to prevent burns during procedures just like our larger units in the Operating Room.

*Gold Probe is a product of Boston Scientific*
MEDICAL LIGHTING

Bovie® offers energy efficient LED Medical Lights to provide 50,000 hours of cool, clear visibility and are ideal for patient exams or small surgical procedure rooms. Control your lighting options with one hand. Bovie Medical Lighting provides a multi-dimming and illumination field that is controlled with a sterilizable handle keeping you in a sterile field.

Recommended Complementary Products

SMOKE EVACUATION SYSTEM

Smoke Shark™ II
The Bovie Smoke Shark II is designed to be easy to use and is effective for controlling surgical smoke generated from the use of any energy devices including electrosurgical, laser, and ultrasonic products.

MOBILE CART

PENCILS

RETURN ELECTRODES

SE02 – Smoke Shark unit with pneumatic footswitch (FSSEP)

SEPAT – Pencil adaptor for smoke evacuator

ESP1 – Sterile disposable electrosurgical push button pencil

ESP6 – Sterile disposable electrosurgical rocker switch pencil

ESRE – Split adult return electrode

ESREC – Split adult return electrode w/2.8 m cable
Recommended Complementary Products

**BIPOLAR & FOOTSWITCH ACCESSORIES**

- **A824** – Reusable bipolar forceps
- **A827V** – Bipolar cable
- **A1255A** – Footswitch adapter
- **BV-1254B** – Bipolar Footswitch
- **BV-1253B** – Monopolar Footswitch

**SPECIALTY ELECTRODES**

- **ES62** – SuperCut™ tungsten needle, super fine 4.5cm, sterile
- **ES63** – SuperCut tungsten needle, modified super fine 4.5cm, sterile
- **ES61HS** – Disposable SuperCut tungsten needle, modified fine with Heatshrink, sterile
- **AR00** – Hook 90 arthroscopic electrode, sterile
- **AR02** – Acromioplasty arthroscopic electrode, sterile
- **AR01** – Hook 45 arthroscopic electrode, sterile
- **AR03** – Menisectomy arthroscopic electrode, sterile

**DISPOSABLE ELECTRODES**

- **ES07** – Extended ball electrode 0.197” (5mm)
- **ES39** – Extended modified blade electrode 6” (15.24cm)
- **ES20** – Standard 3/16” ball electrode 0.188” (4.78mm)
- **ES02** – Standard needle electrode 2.75” (6.99cm)
- **ES01** – Standard blade electrode 2.75” (6.99cm)

**LAPAROSCOPIC ELECTRODES**

- **LH01** – L-Hook heavy wire with 4mm adaptor, sterile
- **LH08** – L-Hook wire with 4mm adaptor, sterile
- **LJ07** – J-Hook wire with 4mm adaptor, sterile
- **LL06** – Standard blade with 4mm adaptor, sterile
- **LS05** – Spatula with 4mm adaptor, sterile
- **LB02** – Ball with 4mm adaptor, sterile

**RESISTICK II™ COATED ELECTRODES**

- **ES50T** – Blade electrode 2.5” (6.35cm)
- **ES39T** – Extended modified blade electrode 6” (15.24cm)
- **ES20T** – Standard 3/16” ball electrode 0.188” (4.78mm)
- **ES02T** – Standard needle electrode 2.75” (6.99cm)
